

AZIX PLUS

ACIDIFYING AND SANITIZING

- ✓ DOES NOT CREATE BIOFILM: DOES NOT PLUG THE WATER SYSTEM
- ✓ ACIDIFIES THE INTESTINE BY ITS SLOW DISSOCIATION, COMBINATION OF AMMONIUM SALTS AND COMBINATION OF ACIDS OF DIFFERENT PK
- ✓ IMPROVES THE STATE OF INTESTINAL MICROVILLI
- ✓ PROMOTES THE DEVELOPMENT OF INTESTINAL FLORA
- ✓ INCREASES PRODUCTION OF ANIMALS

MORE INFORMATION ABOUT THE PRODUCT

Prebiotic acidifier and intestinal sanitizer for water or food.

Bacteriostatic. Fungicide.

The more acidic pH favors enzymatic activity and digestibility.

Use in situations of stress and dietary changes.

Direct application in the water tank or with metering pump.

To lower the pH of the water to a preset one, it is necessary to measure with strips of pH, pHmetro or probe of pH, since each water will behave of different way to have different capacity buffer.
