

BEDGEN 40® AS PLUS

Natural hepatoprotective effect

- Increases production and release of bile.
- Improves digestibility and nutrients absorption.
- Enhances the liver's detoxification capacity.
- Protects the liver and helps it recover.

PRODUCT DESCRIPTION

BEDGEN 40® AS PLUS is a natural feed additive, based on a blend of standardized plant extracts, that modulates the liver's activity, enhancing its detoxification capacity as well as its ability to produce bile and metabolize nutrients, allowing animals to express their full productive potential.

INDICATIONS

BEDGEN 40® AS PLUS is indicated to improve animals' health and productivity under challenging conditions caused by toxins, metabolic dysfunction, deficient digestibility and stress situations.

ADMINISTRATION

Administer orally mixed with feed.

RECOMMENDED DOSE

150 g per ton of feed,
or at the discretion of the nutritionist in charge of feed formulation.

PACKING

25 kg, 5 kg, 1 kg.

SPECIES

Poultry, Swine.
