

BEDGEN 40® AQUA

Natural immunostimulant effect

- Improves nutrients absorption.
- Protects the liver and helps it recover.
- Helps maintain the integrity of the digestive tract.
- Stimulates the immune response and reduces mortality.

PRODUCT DESCRIPTION

BEDGEN 40® AQUA is a natural feed additive that modulates the liver's activity, and due to its capacity to increase bile production and mobilize fat, it helps prevent fatty liver syndrome. Moreover, it helps maintain the integrity of the digestive tract promoting a better absorption of nutrients and subsequently enhancing the fish first line of defense.

INDICATIONS

BEDGEN 40® AQUA is indicated to improve the productivity of fish that feed high-fat diets and/or are subject to challenging situations caused by manipulation or by viral/bacterial infections.

ADMINISTRATION

Administer orally mixed with feed.

RECOMMENDED DOSE

500 g per ton of feed,
or at the discretion of the nutritionist in charge of feed formulation.

PACKING

25 kg.

SPECIES

Fish (Salmon, Sea Bass, Sea Bream, Tilapia, Trout), Shrimp.
